Regulations regarding Satellite Dish installation

1. Homeowners are to be responsible for any damage caused by satellite dish installation.
2. Mount satellite dishes under roof eaves on the south side of the building, and if possible one dish per building. Absolutely no mounting them on the roofs or chimneys.
3. Dish size is limited to 20" or whatever the standard dish size is.
4. No vegetation is to be removed in order to install satellite dishes without prior approval.
5. Dish installation to be approved prior to installation.
